

Control your energy costs

with the *official* energy partner of Ohio Life Sciences.

No matter the size of your facility, IGS Energy can help you gain more control over your electricity and natural gas costs.

A trusted, Ohio-based partner for electricity and natural gas supply

As an OLS member and supplier with a deep understanding of your industry, IGS Energy offers traditional and green energy solutions to help you source and manage your energy. Whether it's electricity or natural gas, we can customize a pricing strategy for your business.

Here for you

Your business is unique, and you deserve to work with an energy partner that's committed to finding you a customized energy solution. We've been family owned since 1989 and pride ourselves on delivering better peace of mind when it comes to your energy supply.

For a no-obligation cost analysis, simply share a copy of your most recent utility bill. We'll follow up with customized options that make sense for your organization. We're looking forward to connecting with you.

The time is right for a switch if you're:

Looking for more transparency in your energy contract

Seeking competitive pricing from a direct supplier

Interested in working with a partner that understands your organization's unique energy usage

Simply call or email OLS
Account Manager Andrea Wilkins.
